A 3D ultrasound takes thousand of pictures or photos of the baby at the once time. These are then translated by computer into 3 dimensional images which are almost as clear as a real life photograph. These "still" pictures of your baby mean that you can see your baby in three dimensions, rather than two.

See our summary of how your baby is developing from two months. Within each month, 3D ultrasound images give you an idea of how your baby may look. 2 months pregnant; 3 months pregnant; 4 months pregnant; 5 months pregnant; 6 months pregnant; 7 months pregnant; 8 months pregnant; 9 months pregnant

## **Fetal development week by week - BabyCentre UK**

Babies weigh about 2 1/4 pounds by the start of the third trimester. They can blink their eyes, which now sport lashes. And their wrinkled skin is starting to smooth out as they put on baby fat. They're also developing fingernails, toenails, and real hair (or at least some peach fuzz), and adding billions of neurons to their brain.
