Adobe Illustrator 3 Applescript Guide

A script is a series of commands that tells Illustrator to perform one or more tasks. Adobe Illustrator CC 2015.3 supports scripts written in AppleScript, JavaScript or VBScript. Sample scripts are included in the Adobe Illustrator CC 2015.3 installer and are installed with the product. The latest available scripting documentation is provided below:

Adobe Illustrator CS4 Scripting Reference: AppleScript

I'll admit that was my first thought when years ago I heard about a plug-in to add AppleScript support to Adobe Illustrator. I could understand how scripting support was essential for page layout programs. But Illustrator was a program for creating art, involving many design decisions that only a graphic artist could make.
