This year I've been teaching a Classical Astronomy class in our local homeschool co-op. I've been using both the Signs & Seasons textbook and the accompanying Field Journal . The curriculum is meant for high-school-age students, and after trying it out in a classroom setting, I'm eager to use it with my own kids when they get older.

## **Astronomy Curriculum for Homeschoolers**

Homeschool Astronomy is without a doubt an educational ride worth taking for students and parents alike. The curriculum does a great job of taking topics we think we know a thing or two about, and expanding on them in eyes-widening, jaw-dropping, mind-blowing ways. This is learning done right!
