Economic analysis emphasizes goods sought in a market and tends to use the consumer's choices as evidence (revealed preference) that various products are of economic value. In this view, religious or political struggle over what "goods" are available in the marketplace is inevitable, and consensus on some core questions about body and society and ecosystems affected by the transaction, are ...

Value theory - Wikipedia

The values taken for given in decision-theoretical analysis can, but need not, be moral values of the types that are developed and analyzed in moral philosophy. Decision theory has traditionally had a predilection for utilitarianism, whose structure is suitable for most formal models of decision-making.
