Cable Run on L&W Lift System - Coachmen Viking Shasta Jayco

The lift systems are simply designed, but

Read PDF L W Lift System

they will fail after years of use or if not properly maintained. The majority of Viking campers use a Goshen-style lift. This system uses a cable on pulleys to raise the camper on springs. Some of the trailers have the option to use the lift automatically, while some use the basic crank handle.

As the Wall-to-Wall™ Lift System can be used in different places, it offers an economical solution. One boom arm can be used in, for example, the bathroom, bedroom or other areas. The Wall-to-Wall Lift System may be installed between the bath and toilet, making them both accessible in a single move.
